2.3 Main text

Manuscripts must be printed two columns to a page. The dimensions of the columns are 3-1/4" wide, 7/8" margins in the right and left sides, and 1/4" gap between the two columns. The bottom margin in all cases is 1 1/8". Start the text on all pages except the first page at 3/4" below the top of the page.

For the body of the text, use 10-point type in a clear, readable font (Times-Roman or equivalent), with 1-point leading (i.e., 10 on 11).

2.4 Abstract

Begin the first paragraph (page one, column one) with the abstract, indented 1/4" on both sides.

2.5 Headings

Headings should be in 12-point type, with 1 line of space above, and one-half line of space below.

2.6 Tables and figures

Table and figures should be centered in one-column, or centered at top of page if the figure is larger than a column in width.

2.7 Page numbering, headers and footers

Do not include headers, footers or page numbers in your final submission. These will be added when the publication is assembled. However, for the version submitted for refereeing only you may include page numbers.

2.8 Copyright Notice

Include a copyright notice at the bottom of the first column, containing the text used here. In this document, it has been placed in a frame to fix its position. The copyright notice is not necessary for the version submitted for refereeing.

3 Example document

This document is an example of the recommended format and uses the *vldb.cls* style file. Even if you use this document as the basis for formatting your submission, you must still check that, when printed, the hard copy meets the required format.
